Testimonials

Haji Hanif Tayyab

Head of Al-Mustafa Welfare Trust

'I have heard and read a lot about this remarkable effort, including historical insights from scholars. Preparing a unified initiative like this is no easy task, especially in an era where even minor disagreements can escalate. However, this team has successfully created a unified product, distributing millions of books to students, teachers, and institutions nationwide, with federal and provincial governments playing vital roles. Importantly, their work is purely for the sake of Allah, focused on serving humanity and knowledge without commercial motives. I wholeheartedly congratulate The ILM Foundation on this noble achievement.'

Ms. Sara Sana Shah

Principal CAMS College

'Honestly the workshop was highly engaging and interactive. It has provided us effective prevention and intervention strategies to address bullying effectively. I think if we had more time we could have discussed more scenarios but still it cleared many important points. With that this event also provided an excellent platform to exchange ideas and do business networking. I personally enjoyed the workshop a lot. Kindly keep on conducting such sessions and do invite me too.'

'The ILM Foundation has worked diligently to create simplified Quranic translations that convey Allah's message to children in an accessible manner. With the guidance of Allah (SWT), the foundation has transcended differences, considering input from scholars of all schools of thought to produce a unified translation. Alhamdulillah, this translation is recognized and mandated in government schools across three provinces in Pakistan. This is a significant achievement, and we pray for continued success and progress for The ILM Foundation.'
